## **ABAKAN**

Growing up near Paris, Abakan musical enlightenment came from listening to Earth, Wind and Fire and George Benson's vocal madness from morning till night.

His love for music came early on thanks to a musician/singer father who fortunately introduced him to everyone from Toto to Al Jarreau.

In 2014, released his 1st album titled « A New man ». A first, organic album, with a live feel. A mixture of influences without compromise. Characterized by many rich collaborations..

He composed all the songs and will have the chance to play them on famous Parisian stages like New Morning or Bellevilloise.

In 2016, his music traveled during a mini Asian tour between Manila and Singapore.

In 2018, it is at Active Records that Abakan comes back to us, with a new single entitled "The People" and in February 2019 with « Perfect Paradise ».

**THE PEOPLE**  
**SINGLE - 12-2018**

The song speaks of the way in which, today, we communicate or exchange.

At a time when we are over-connected, or the information goes so fast, we communicate in the end, mainly through machines, losing by the way, a little of our humanity.

**PARADISE**  
**SINGLE - 02-2019**

The title speaks of self-quest and search for happiness. Forgetting often that it resides mainly in us and in the little things that life already offers us.
